ACADEMIC APPOINTMENT

Florida SouthWestern State College, School of Business and Technology

Fort Myers, Florida

Adjunct Faculty

August 2026

Anticipated undergraduate teaching appointment in business and technology. Formal appointment documentation and course assignment are pending.

EDUCATION

Florida Gulf Coast University, Lutgert College of Business

Fort Myers, Florida

Master of Science, Data Analytics & Artificial Intelligence

Expected May 2027

Relevant study: predictive modeling, machine learning, statistical modeling, SQL, AI strategy, and AI-enabled decision support for business operations.

Florida Gulf Coast University, Lutgert College of Business

Fort Myers, Florida

Graduate Certificate, Artificial Intelligence & Machine Learning

Expected May 2027

Florida Gulf Coast University, Lutgert College of Business

Fort Myers, Florida

Master of Business Administration, Information Systems

May 2026

Relevant study: information systems, IT management, applied economics, business process improvement, data-driven decision-making, and systems strategy.

Florida Gulf Coast University

Fort Myers, Florida

Bachelor of Arts, Integrated Studies; Minor in Economics

May 2024

Multidisciplinary concentration spanning economics, analytics, business strategy, and quantitative reasoning.

TEACHING AND SCHOLARLY INTERESTS

Teaching interests: business information systems, business process management, project management, operations management, data analytics for decision-making, artificial intelligence in business, technology strategy, and supply chain management

Scholarly and practitioner interests: AI readiness and governance, AI-assisted software development, process redesign, operational analytics, business systems architecture, decision-support systems, and deterministic implementation of complex regulatory rules

SELECTED APPLIED SCHOLARSHIP AND TECHNICAL PROJECTS

Compliance Tracking and Document Generation — K–12 Special Education

TypeScript, Prisma, PostgreSQL, LLM tooling

- Designed a system to keep individualized education plans current, track deadlines, and draft compliance documentation while preserving staff approval and field-level provenance.
- Applied fixed-format AI outputs, prompt-level protection of student data, spending controls, audit history, scheduled deletion, and school-level data separation to support FERPA-related obligations.

Regulatory Rules Engine — Professional Sports

Next.js, React, TypeScript, PostgreSQL, Python

- Encoded NBA trade restrictions from the league’s 2023 collective bargaining agreement into auditable deterministic rules that cite the controlling provision and identify corrective options.
- Modeled spending limits, credits, charges, prior-season penalties, trade exceptions, cap room, and non-simultaneous transactions while keeping AI outside the correctness path.

Online Ordering and Scheduling System — Food Service

JavaScript, Netlify Functions, PostgreSQL, Stripe, Twilio

- Replaced manual web, telephone, and walk-in order intake with one operational queue and a server-side scheduling engine for fulfillment windows, cutoffs, blackouts, and lead times.
- Implemented an idempotent payment webhook and nine-state order lifecycle to prevent duplicate charges and notifications.

Online Store and Project Portal — Classic Automotive

Next.js, React, TypeScript, PostgreSQL, Stripe

- Delivered a phased storefront, customer-account system, and internal product-development portal on a unified relational database.
- Implemented revocable role access, signed-cookie authentication, bcrypt password hashing, and append-only order history that preserves pricing through catalog changes.

Lead Capture and Client Portal — Home Services

Next.js, Supabase, TypeScript, PostgreSQL

- Combined a public website, lead capture, client portal, and protected document storage on one database.
- Implemented row-level security, expiring media links, and automated account and permission creation for Google and Apple sign-in.

PROFESSIONAL EXPERIENCE

ZLDA Group

Naples, Florida

Business Systems Architect and Co-Founder

June 2024–Present

- Partner with operators to translate constraints, exceptions, and manual workarounds into requirements and system designs.
- Design, build, and deploy systems spanning intake, ordering and fulfillment, scheduling, client portals, analytics, and internal operations.
- Lead discovery, engagement scoping, pricing, client relationships, contracting, deployment, and ongoing support.

Premier Inpatient Partners

Naples, Florida

AI and Process Automation Lead (Contract)

February 2026–May 2026

- Architected and delivered a HIPAA-aligned administrative platform serving 10 administrative staff and more than 80 physicians across HR and operations.
- Replaced approximately 20 disconnected spreadsheets with one system of record, reducing stale-data errors and conflicting file versions.
- Conducted discovery across three departments and translated business needs into user stories, acceptance criteria, and technical design documentation.

Studio+

Fort Myers, Florida

Project Administrator

June 2024–October 2025

- Led project financial administration for a six-office architecture firm, including contract setup, time capture, billing, and financial reporting.
- Reviewed workflows and standardized procedures to improve billing consistency and reduce rework and revenue leakage.
- Partnered with project managers and finance leadership on forecasting, budget-to-actual analysis, resource allocation, and milestone-based revenue recognition.

Elite Permits

Fort Myers, Florida

Permit Coordinator

January 2024–June 2024

- Managed permit processing across jurisdictions and streamlined administrative workflows, reducing processing time by 15% while maintaining regulatory compliance.

The Sheppard Law Firm

Fort Myers, Florida

Intake Coordinator and Administrative Assistant

July 2022–January 2024

- Redesigned client intake in Decision Vault, improving efficiency by 30%, and partnered with IT to integrate the firm's CRM with Outlook.
- Implemented an AI-assisted legal dictation workflow that reduced transcription turnaround by 50%.

Naples Community Hospital (NCH)

Naples, Florida

Telemetry Monitor; Unit Secretary; Patient Registrar

February 2018–July 2022

- Identified a hospital-wide telemetry alarm configuration issue and recommended corrective updates that improved monitoring protocols and patient safety.
- Supported high-volume admissions and records management through the COVID-19 pandemic, trained new clinical support staff, and received two consecutive Secretary of the Year nominations.

PROFESSIONAL CERTIFICATIONS

- Project Management Professional (PMP), Project Management Institute, 2026
- Lean Six Sigma Black Belt (LSSBB), Educate 360, 2024
- Certified Supply Chain Professional (CSCP), ASCM, 2025
- Enterprise Design Thinking Practitioner, IBM, 2025
- Google Project Management Certificate, Coursera, 2023
- Notary Public, State of Florida; commission valid through September 2027

PROFESSIONAL MEMBERSHIPS

- Project Management Institute
- Association for Supply Chain Management

MILITARY SERVICE

United States Navy Reserve

Tampa, Florida

Construction Mechanic (Seabee), CMCN (E-3)

July 2017–October 2023

- Served with Naval Mobile Construction Battalion 14 while working full-time in healthcare and carrying a full undergraduate course load.
- Performed inspection, diagnosis, scheduled maintenance, repair, documentation, and readiness reporting on heavy construction equipment under Navy technical procedures; earned Unit Maintenance Person qualification.
